Oct 1, 2019 What will be the format of my Logic Podcast? - Guide. See also List of music software Category:Digital audio workstation software Category:Audio editing software Category:MacOS audio editors Category:Windows audio software Category:Logic ProQ: Exception handling from Listener inside Listener I'm using Dialog box so inside an activity I'm using a listener for onclicklistener for two buttons. One is OK and other CANCEL. If user clicks on Cancel button I need to go back to the previous activity by opening activity again. So I'm using finish() method. In my activity where I use dialog I'm using the following Listener public void get REQUEST SUCCESS(View view) { // TODO Auto-generated method stub if (dialog.isShowing()) { dialog.dismiss(); }
