Hello, I did not understand where the link is. In the forum, I see a link to the download page, but there is only one download button and when you click on it, a page with a thank you for downloading appears. I tried to download from other sites and nothing came out. In the folder with the program, I see the Immo.exe file, but when I open it, I get a notification that the file is blocked. I can't open it. Help me please. [Download Link](#)
