
T-Splines For Rhino 5 Crackey

Apr 7, 2019 The reason I'm asking this is I have the license for T-splines for Rhino 5. I use it about 3 weeks ago but then windows update destroyed my Keyshot and I had to reinstall all aps again. Since my license for T-splines is still valid would it be possible to do a reinstall or re-install? I haven't had a problem with reg keys and everything runs fine. If anyone has the same or similar problem I'd love to know if it is possible to reinstall or re-install? A: Got some news for you folks: Autodesk Developer Services now has a T-Splines for Rhino Plugin and it is 'free' as in 'free as in beer'. Just go to this link : and download the T-Splines for Rhino 5 version. Hope this helps. Q: Can't use '\w' in my SQL query I have a problem, I've got this SQL query: `SELECT n.ID, n.name, m.price FROM some_table m, `some_table2` n WHERE m.ID = n.ID AND n.ID = '$id'` Then I get this error: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'some_table2` n WHERE n.ID = '250' But if I switch it like this: `SELECT n.ID, n.name, m.price FROM some_table m, `some_table` n WHERE m.ID = n.ID AND n.ID = '$id'` Then it works. But why can't I use \w? Edit1: @Emmet I'm using MySql. A: \ is a MySQL reserved word. You need
