Visit: [contactpro.com](http://contactpro.com) and can even be identified in the hydrothermal symbiosis between chalcosiphonaceae and acetogenic bacteria. (Levin, 1993; Levine, 2000). A recent review of the world's methane production in natural and anthropogenic ecosystems and of their role in global methane budgets provides data on the methane and carbon monoxide levels in the oceans, how much methane is generated by marine animals (as reported in the

## Contact Plus Professional (Final 2022)

The Contact Plus Professional database software is designed to help sales and account management professionals manage multiple sales opportunities and multiple clients. Contact Plus Professional is a database application designed to maintain contacts, prospects and sales. The Contact Plus Professional software enables the sales person to define client record fields that contain client related info and data. The database enables the user to track contacts, events and possible sales. The Contact Plus Professional database application can be used by independent sales agents, independent real estate agents, independent mortgage brokers and independent professionals with multiple clients. The application is a great addition to a personal base of contacts. Thanks to the client record fields you can enter information like the following: Contact Plus Professional Features: Create multiple client records (contacts) Create multiple prospect records (contacts) Store contacts with created documents or notes Store contacts with estimated sales figures Stored phone numbers (contacts) and email addresses Sales Follow Up Email Alerts Create Estimated Quote Create Estimated Sale Create Sales Follow Up Contact Plus Professional has two event types for your contacts, estimated quotes and sales. These events can be created on clients and prospects. When a sales follow up event is created it notes that the customer has been contacted for follow-up. On the lead's record, the salesperson's name is noted with the activity. Mobile Addresses Mobile addressing features lets you store both the mobile phone and work phone numbers in the client record. All entries are instantly available. With these phone numbers, you can email a client with an updated list of services or products. Simple to Use The application is the simplest of the Contact Plus series to

---

use. Each process, view or feature can be learned quickly with a brief training session. You can easily handle clients, contacts and prospects with ease. Contact Plus Professional User Interface The application includes a simple user interface that is intuitive to use. You can define fields for different uses or enter data in their own fields. Import contacts from outside applications like phone books. Contact Plus Professional Database Rules You can create rules for all of your clients and contacts. These rules allow you to define data elements, set default values, set required fields and set optional fields. This application includes the database rules mechanism in the entire Contact Plus series. Contact Plus Professional does not have the ability to override the default database rules, but all subsequent programs in the Contact Plus series b7e8fdf5c8

Contact Plus Professional - Internet... All the software that's best for your mac is here! Editors' Notes "I had to find contact management software that tracked more than just phone calls, and the Contact Plus Pro application works beautifully for my business. I manage sales and prospecting, so I needed an application that was scalable. Contact Plus Pro is the right solution, it's fast and easy, and has a great feature set." —Ray Camden, Creative Professional "We use Contact Plus Pro all the time at The Women's Information Network. The seamless integration with Exchange and the simplicity and power of Contact Plus Pro makes it a great contact manager." —Louann Henderson, The Women's Information Network Ratings Details Description Contact Plus Professional is the latest in a long line of award winning productivity software to organize your business. With this application you can organize your contacts to manage your sales and contact management needs. With Contact Plus Professional, you can store customers in one database and prospects in another. You can define custom data fields that can contain a variety of useful information. You can track events on your contacts and keep up-to-date historical notes about conversations and meetings you had with your clients. Detailed information about calls made, letters sent, notes taken are instantly available. Browse and edit them easily in a variety of screens, like this one displayed at the left. When used in a multi-user format, the User ID of who completed it gives you a reference for which of your coworkers met with this client or wrote him a letter. The image to the left depicts Quotes, one of the two new event types in Contact Plus Pro. With a Quote, you can estimate anticipated close data on an upcoming sale on one of your contacts. You can even estimate a percentage on how likely you think this customer
