JazzerBot Registration Code

JazzerBot is a simple Jazz improviser. It has features borrowed from Jazz SEQ, which is a sequencer for Blues/Rock and a more complex Jazz SEQ, but jazzerbot comes with an interesting feature - loading/saving/playing 'improvised' jazz solos. The jazz solos are based on the technique described in the book, *Improvisation in Music*, by Eric Caplan. I've completed an API documentation and I think it was a good idea to make it public so all users of my Java APIs can benefit. In addition, I've completed an "official documentation" which includes 3 questions on [StackOverflow.com](#) and "Official Demo" which shows how the app works. I'd like to share it with you all in the hope that you will find it useful. [b7e8fdf5c8](#)
