Notes: - You don't need a VPN or a Proxy. - This will remove ALL add-ons/addons for the file hoster. These include: - Download Host - Host Download Manager - Download sizer - Download cronjob - Remember that you have to re-install all your add-ons that your hoster usually do in case you want a proper backup of them. - You can install your VPN provider as usual. - Later you can use the good-connection feature which is for non-VPN users. - Enjoy -Sorry for the delay. -I forgot to add that, and someone whom I thought was the original creator of this program said that in order to get a new key when installing, we need to use his or her older version of the crack. That's why we have the link above.Q: Why is my Merge-Sort returning an array of arrays? I've been writing a Merge-Sort in java, and I just want a single int array returned, but when I try to return it, it returns an array of arrays. public static int[] mergeSort(int[] a) { if(a.length
