Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Friday, January 10, 2017 Another day, another Roblox blog post. I didn't post anything for a few months, but I've got some exciting news to share. So let's get started. I've been playing Roblox for over 4 years now, and I've built an account with over 50k views (I know there's a lot of people that haven't been playing Roblox for as long, and it's pretty important for me to be in contact with them because I want to encourage them to start playing the game, and there are 2 ways you can do that: get a FREE Robux account, and become a MEMBER. Now for those of you who aren't familiar with Roblox, it's a sandbox/social gaming platform where you can create your own worlds and play them online with friends. There are game types you can play, and you can add in your own voice to the games. There is an in-game store where you can get skins and power-ups (you can build your own houses/areas/weapons/etc (or even get better and more stuff. Are you guys already familiar with Roblox? Now if you're really a fan of the game, then you'll be willing to trade some of your Robux for FREE Robux. But it can be a tedious process, so I've made a tutorial that is very easy to follow. So here's what you have to do: 1. Log in to Roblox using your Roblox username and
